

Navtech Secures Contract Extension with British Airways

British Airways signs three year contract extension for Aerad Aeronautical Charts

Waterloo, ON November 15, 2006 – Navtech, Inc. (OTCBB: NAVH), a leading international provider of flight operations software and services, today announced a major contract renewal between British Airways and one of its subsidiaries, European Aeronautical Group UK.

British Airways has signed a three-year contract extension for the provision of Aerad Aeronautical Charts. The services are to include international Aerodrome and Enroute charts, which contain essential procedures, navigational information and layout diagrams for international airports and flight paths. Navtech provides charting services to over 80 airlines, and all are available as paper-based or electronic products.

“We are happy to continue our relationship with European Aeronautical Group. This agreement provides our business with continuity during a period of significant business change and our transition into Heathrow’s Terminal 5”, said Paul Tate, Flight Technical Services Manager at British Airways.

“We are very pleased with British Airways’ continued commitment to our charting services”, said David Strucke, Navtech’s President and CEO. “British Airways is a highly respected airline, and we are delighted to continue our relationship”.

“British Airways’ extension of our charting services is greatly appreciated”, commented Iain Millan, Navtech’s Director of Aerad charting services. “Our products have served the aviation industry for over 50 years, and our electronic versions are well positioned for the changes occurring in the modern aviation industry.”

About British Airways

British Airways is one of the world’s largest airlines carrying more than 35 million passengers worldwide. British Airways has a fleet of 284 aircraft flying to more than 140 destinations around the world. For further information, please visit www.ba.com.
