

Navtech wins Junior Achievement Business Achievement award

KPMG Excellence in Technology

Waterloo, November 1, 2007 – Navtech is pleased to announce that it has received the KPMG Excellence in Technology Award at the Junior Achievement Waterloo Region Business Achievement Awards ceremony. The award is presented to the company that best demonstrates outstanding entrepreneurial achievements through the organization, development, management and/or application for a new technological concept, while achieving measurable business results. David Strucke, President and CEO of Navtech, was present at the award ceremony to accept the award.

"The JA Business Achievement Awards were introduced to honour local businesses which have excelled or made an outstanding community contribution," stated JA in their ceremony pamphlet. "Waterloo Region derives many benefits from these champions."

"This award is really an honour and we are very excited about it," said David Strucke "Navtech is proud to be recognized among such a strong caliber of talented tech companies."

The competition, including five other awards, was open to Waterloo Region nominations which came from clients, employees and colleagues of all 97 nominated companies.

About Junior Achievement

Junior Achievement (JA) began in Waterloo Region 37 years ago. Today, we are part of a network of 16 JA organizations across Canada. Last year, 220,000 Canadian students benefited from JA in-school and after-school programs. A key feature of all Junior Achievement programs is the involvement of volunteers from the local business community. These dedicated people share their expertise and experience with the student, while guiding them through the "experiential-learning" program materials.

About Navtech

Navtech is a leading international provider of aviation software. Navtech's integrated flight operations solutions are critical to the daily flight operations of commercial passenger and cargo air carriers, helping airlines to increase safety, maximize efficiency, and reduce costs. The company's dispatch solutions provide advanced aeronautical charts, navigational data, and optimized flight paths and ensure compliance with complex national and international safety regulations. Navtech's crew planning software builds and manages schedules that minimize costs and increase employee satisfaction and retention while complying with collective agreements and government regulations.
